DEFICIENCIES & SAFETY REMARKS

DG MAJOR DEFICIENCIES	—
SAFETY REMARKS	—
GENERAL REMARKS	Digitized from scanned paper HOTO checklist (Narsingdi zone backfill). | PDF checklist notes: Site Address: Shaplamor (handwritten). Engine serial number and DG Battery Brand/SN fields left blank. Top note explicitly states water content as 'N/A' (unlike other sites which had a water figure). All connected-generator checklist rows ticked OK, disconnected section 'All OK'. DG last servicing date 31.03.26 - note this is the same date format style as 'Date of Handover' field (31-08-26) written further down; the two dates are different and not to be confused. Fuel tank measurement formula: (122x122x28.2/1000)=419L. Handover Status checkbox mark is a bit ambiguous ('OK' written with tick near Completed column) but interpreted as Completed.
